# 2. DASAR PENYUSUNAN LAPORAN KEUANGAN KONSOLIDASIAN (lanjutan)

# e. Penggunaan pertimbangan, estimasi dan asumsi (lanjutan)

Ketika mengukur nilai wajar aset atau liabilitas, Perusahaan menggunakan data pasar yang dapat diobservasi sejauh dimungkinkan. Nilai wajar ditentukan dengan menggunakan hirarki input berikut ini yang digunakan dalam teknik penilaian atas aset dan liabilitas:

- Level 1: kuotasi harga (tanpa disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik.
- Level 2: input selain kuotasi harga yang termasuk dalam level 1, yang dapat diobservasi, baik secara langsung (yaitu harga) atau secara tidak langsung (yaitu berasal dari harga lain yang dapat diobservasi).
- Level 3: input yang tidak berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Jika input yang digunakan untuk mengukur nilai wajar aset atau liabilitas diambil dari berbagai sumber yang berbeda atas nilai wajar hirarki, maka pengukuran nilai wajar untuk seluruh kelas aset atau liabilitas dianggap telah dilakukan menggunakan level input terendah yang signifikan atas keseluruhan pengukuran (level 3 menjadi yang terendah).

Informasi lebih lanjut tentang input dan asumsi signifikan yang digunakan dalam mengukur nilai wajar diungkapkan di Catatan 18.

## f. Prinsip konsolidasi

Entitas anak adalah entitas yang dikendalikan oleh Grup baik secara langsung maupun tidak langsung. Grup mengendalikan suatu entitas ketika Grup terekpos dengan, atau memiliki hak atas, imbal hasil variabel dari keterlibatan Grup dengan entitas dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaan Grup di entitas.

Perusahaan memenuhi persyaratan sebagai entitas investasi kualifikasian sebagaimana diatur dalam PSAK 65, "Laporan Keuangan Konsolidasian", oleh karena itu investasi di entitas yang dikendalikan serta investasi dalam entitas asosiasi dan ventura bersama diukur pada nilai wajar melalui laba rugi (FVTPL) sesuai PSAK 71 dengan pengecualian untuk entitas anak yang dianggap perpanjangan tangan dari aktivitas investasi Perusahaan (yaitu entitas anak yang bukan merupakan entitas investasi (sesuai dengan PSAK 65) yang hanya memberikan jasa manajemen investasi ke Perusahaan).

# 2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

# e. Use of judgements, estimates and assumptions (continued)

When measuring the fair value of an asset or a liability, the Company uses observable market data to the extent possible. Fair values are determined using the following hierarchy of inputs used in the valuation techniques for assets and liabilities:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs, other than quoted prices included in Level 1, that are observable, either directly (i.e. prices) or indirectly (i.e. derived from other observable prices).
- Level 3: inputs that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability are drawn from a mixture of different level sources of the fair value hierarchy, then the fair value measurement for the entire class of the asset or liability is considered to have been done using the lowest level input that is significant to the entire measurement (Level 3 being the lowest).

Further information about the significant inputs and assumptions made in measuring fair values is disclosed in Note 18.

## f. Principles of consolidation

Subsidiaries are entities controlled by the Group both directly or indirectly. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Company is a qualifying investment entity stipulated in PSAK 65, "Consolidated Financial Statements", and accordingly investments in controlled entities - as well as investments in associates and joint ventures are measured at fair value through profit or loss (FVTPL) in accordance with PSAK 71 with the exception of subsidiaries that are considered an extension of the Company's investing activities (i.e. a subsidiary that is non-investment entity (in accordance with PSAK 65) which only provides investment management services to the Company).

### f. Prinsip konsolidasi (lanjutan)

Oleh karena itu, Perusahaan hanya mengkonsolidasikan entitas anak yang bukan merupakan entitas investasi (sesuai dengan PSAK 65) tetapi memberikan jasa manajemen investasi pada Perusahaan (lihat Catatan 1e untuk daftar entitas anak yang dikonsolidasikan).

Kepentingan nonpengendali atas aset neto entitas anak diidentifikasi pada tanggal kombinasi bisnis yang selanjutnya disesuaikan dengan proporsi atas perubahan ekuitas entitas anak dan disajikan sebagai bagian dari ekuitas pada laporan posisi keuangan konsolidasian.

Bila pengendalian berakhir dalam periode berjalan, hasil usaha entitas tersebut dimasukkan ke dalam laporan keuangan konsolidasian untuk bagian tahun dimana pengendalian masih berlangsung.

Kebijakan akuntansi yang digunakan dalam penyusunan laporan keuangan konsolidasian telah diterapkan secara konsisten oleh Grup dalam semua hal yang material.

Seluruh transaksi dan saldo yang material antara perusahaan-perusahaan yang dikonsolidasikan telah dieliminasi, termasuk keuntungan dan kerugian hasil dari transaksi antar perusahaan yang belum direalisasi.

Perubahan dalam bagian kepemilikan Perusahaan pada entitas anak yang dikonsolidasikan yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas. Bagian Perusahaan atas transaksi ekuitas entitas anak tersebut disajikan sebagai "komponen ekuitas lainnya" dalam bagian ekuitas pada laporan posisi keuangan konsolidasian. Ketika pengendalian atas entitas anak yang dikonsolidasikan hilang, bagian kepemilikan yang tersisa di entitas tersebut diukur kembali pada nilai wajarnya dan keuntungan atau kerugian yang dihasilkan diakui dalam laba rugi.

## g. Standar akuntansi baru

Pernyataan Standar Akuntansi Keuangan (PSAK) relevan yang telah disahkan oleh Dewan Standar Akuntansi Keuangan (DSAK) yang berlaku efektif untuk laporan keuangan konsolidasian untuk periode yang berakhir pada tanggal 31 Maret 2023 adalah sebagai berikut:

# 2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

## f. Principles of consolidation (continued)

As a result, the Company only consolidates subsidiaries that are non-investment entities (in accordance with PSAK 65) which provide investment management services to the Company (see Note 1e for the list of consolidated subsidiaries).

Non-controlling interests in the net assets of subsidiaries are identified at the date of business combination and afterwards are adjusted by proportion of changes in equity of subsidiaries and presented as a part of equity in the consolidated statement of financial position.

Where control ceases during a financial period, its results are included in the consolidated financial statements for the part of the year during which control existed.

The accounting policies adopted in preparing the consolidated financial statements have been consistently applied by the Group in all material respects.

All material transactions and balances between consolidated companies have been eliminated, including unrealized gains and losses arising from intercompany transactions.

Changes in the Company's ownership interest in a consolidated subsidiary that do not result in the loss of control are accounted for as equity transactions. The Company's share of equity transactions of the subsidiaries is presented as "other equity components" under the equity section of the consolidated statement of financial position. When control over a previous consolidated subsidiary is lost, any remaining interest in the entity is remeasured at fair value and the resulting gain or loss is recognised in profit or loss.

### a. Instrumen keuangan

Suatu instrumen keuangan diakui pada saat Grup menjadi pihak dari ketentuan kontrak suatu instrumen keuangan. Aset keuangan dihentikan pengakuannya pada saat hak kontraktual Grup atas arus kas yang berasal dari aset keuangan tersebut kadaluwarsa, yaitu ketika aset dialihkan kepada pihak lain tanpa mempertahankan pengendalian atau pada saat seluruh risiko dan manfaat telah ditransfer secara substansial. Liabilitas keuangan dihentikan pengakuannya jika liabilitas Grup kadaluwarsa, atau dilepaskan atau dibatalkan.

#### (1) Aset keuangan

Saat pengakuan awal, suatu aset keuangan diklasifikasikan sebagai diukur pada: biaya perolehan diamortisasi; nilai wajar melalui penghasilan komprehensif lain ("FVOCI") - investasi dalam efek utang; FVOCI - investasi dalam efek ekuitas; atau nilai wajar melalui laba rugi ("FVTPL"). Aset keuangan selanjutnya tidak direklasifikasi kecuali Grup mengubah model bisnisnya dalam mengelola aset keuangan tersebut.

Suatu aset keuangan, yang tidak ditetapkan sebagai diukur pada FVTPL, adalah diukur pada biaya perolehan diamortisasi apabila dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan tersebut dalam rangka mendapatkan arus kas kontraktual dan persyaratan kontraktual dari aset keuangan tersebut menghasilkan arus kas pada tanggal tertentu yang semata dari pembayaran pokok dan bunga dari jumlah pokok terutang.

# 2. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

#### g. New accounting standards (continued)

PSAK that is effective on 1 January 2023:

 Amendments to PSAK 1, "Presentation of Financial Statements: Classification of Liabilities as Current or Non-Current".

As at the authorization date of these consolidated financial statements, the Group are still evaluating the potential impact of the new standards to the consolidated financial statements.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

#### a. Financial instruments

A financial instrument is recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the Group' contractual rights to the cash flows from the financial assets expire, i.e. when the asset is transferred to another party without retaining control or when substantially all risks and rewards are transferred. Financial liabilities are derecognized if the Group's obligation expires, or are discharged or cancelled.

#### (1) Financial assets

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income ("FVOCI") - debt investment; FVOCI equity investment; or fair value through profit or loss ("FVTPL"). Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing the financial assets.

A financial asset, which is not designated as measured at FVTPL, is measured at amortized cost if it is held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

    - (1) Aset keuangan (lanjutan)

Suatu investasi dalam efek utang, yang tidak ditetapkan sebagai diukur pada FVTPL, diukur pada biaya perolehan diamortisasi atau FVOCI apabila dikelola dalam model bisnis yang tujuannya dicapai dengan mendapatkan arus kas kontraktual dan menjual aset keuangan dan persyaratan kontraktual tersebut menghasilkan arus kas pada tanggal tertentu yang semata berasal dari pembayaran pokok dan bunga dari jumlah pokok terutang.

Saat pengakuan awal investasi dalam efek ekuitas yang tidak dimiliki untuk diperdagangkan, Grup dapat mengambil pilihan yang tidak dapat dibatalkan untuk menyajikan perubahan selanjutnya pada nilai wajar investasi dalam efek ekuitas tersebut dalam penghasilan komprehensif lain. Pemilihan ini dilakukan per setiap investasi.

yang Seluruh aset keuangan diklasifikasikan sebagai diukur pada biaya perolehan diamortisasi atau FVOCI sesuai penjelasan di atas adalah diukur pada FVTPL. Pada pengakuan awal, Grup dapat mengambil pilihan yang tidak dapat dibatalkan untuk mengukur suatu aset keuangan, yang memenuhi ketentuan untuk diukur pada antara biaya perolehan diamortisasi, FVOCI, atau FVTPL apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran yang timbul tanpa penetapan tersebut.

Aset keuangan Grup yang diukur pada FVTPL adalah investasi pada saham dan investasi pada efek ekuitas lainnya. Aset keuangan tersebut diukur pada nilai wajar. Keuntungan dan kerugian neto, termasuk penghasilan bunga atau dividen, diakui di laba rugi.

Aset keuangan Grup yang diukur pada biaya perolehan diamortisasi adalah kas dan setara kas, kas yang dibatasi penggunaannya, dan piutang. Aset keuangan tersebut awalnya diakui pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dikurangi dengan penurunan nilai. Penghasilan bunga, keuntungan dan kerugian nilai tukar, dan penurunan nilai diakui di laba rugi. Keuntungan atau kerugian dari penghentian pengakuan juga diakui di laba rugi.

    - (1) Financial assets (continued)

A debt investment, which is not designated as measured at FVTPL, is measured at amortized cost or FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis.

All financial assets are not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at either amortized cost, FVOCI, or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The Group's financial assets measured at FVTPL are investments in shares and investments in other equity securities. These financial assets are measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

The Group's financial assets measured at amortized cost are cash and cash equivalents, restricted cash, and receivables. These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

- a. Instrumen keuangan (lanjutan)
  - (1) Aset keuangan (lanjutan)

Grup tidak memiliki aset keuangan yang diukur pada FVOCI.

#### (2) Liabilitas keuangan

Liabilitas keuangan diklasifikasikan sebagai diukur pada biaya perolehan diamortisasi atau pada FVTPL. Suatu liabilitas keuangan diklasifikasikan sebagai diukur pada FVTPL apabila dimiliki untuk diperdagangkan, merupakan suatu instrumen derivatif atau ditetapkan sebagai diukur pada FVTPL pada pengakuan awalnya.

Liabilitas keuangan Grup lainnya yang diukur pada biaya perolehan diamortisasi adalah utang lainnya dan pinjaman. Liabilitas keuangan tersebut awalnya diakui pada nilai wajar dikurangi biaya transaksi dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya bunga dan keuntungan dan kerugian nilai tukar diakui di laba rugi. Keuntungan atau kerugian dari penghentian pengakuan juga diakui di laba rugi.

## Penentuan nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

### (4) Penghentian pengakuan

Grup menghentikan pengakuan aset keuangan ketika, dan hanya ketika, hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut kadaluarsa atau Grup mengalihkan seluruh hak kontraktual tersebut di mana seluruh risiko dan manfaat atas kepemilikan aset keuangan juga dialihkan. Setiap hak atau kewajiban atas aset keuangan yang dialihkan yang timbul atau yang masih dimiliki oleh Grup diakui sebagai aset atau liabilitas secara terpisah.

Grup menghentikan pengakuan liabilitas keuangan ketika, dan hanya ketika, kewajiban yang ditetapkan dalam kontrak kadaluarsa, dilepaskan atau dibatalkan. PT SARATOGA INVESTAMA SEDAYA Tbk.

### (2) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as measured at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition.

The Group's other financial liabilities measured at amortized cost are other payables and borrowings. These financial liabilities are initially recognized at fair value deducted transaction costs and subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

## (3) Determination of fair value

#### (5) Salinghapus instrumen keuangan

Aset keuangan dan liabilitas keuangan dapat salinghapus dan nilai netonya disajikan dalam laporan posisi keuangan ketika, dan hanya ketika, Grup memiliki hak atas dasar hukum untuk melakukan salinghapus atas jumlah yang telah diakui tersebut dan berniat untuk menyelesaikan secara neto, atau merealisasikan aset dan menyelesaikan liabilitas secara simultan.

Hak salinghapus harus tidak bergantung atas peristiwa di masa depan dan harus dapat dipaksakan secara hukum terhadap seluruh keadaan sebagai berikut:

- a. situasi bisnis yang normal;
- b. peristiwa kegagalan; dan
- c. peristiwa kepailitan atau kebangkrutan dari entitas dan seluruh pihak lawan.

## (6) Penurunan nilai

Grup mengakui cadangan untuk kerugian kredit ekspektasian ("ECL") atas aset keuangan diukur pada biaya perolehan diamortisasi. ECL merupakan suatu perkiraan probabilitas tertimbang atas terjadinya kerugian kredit. Kerugian kredit diukur sebagai nilai kini atas seluruh kekurangan penerimaan kas, yaitu selisih antara arus kas yang terutang ke Grup sesuai kontrak dan arus kas yang diharapkan akan diterima Grup. ECL didiskontokan dengan suku bunga efektif dari aset keuangannya.

Pada setiap tanggal pelaporan, Grup menelaah apakah aset keuangan diukur pada biaya perolehan diamortisasi mengalami penurunan nilai. Suatu aset keuangan mengalami penurunan nilai apabila terdapat satu atau lebih peristiwa, yang memiliki implikasi menurunkan perkiraan arus kas masa depan dari aset keuangan, telah terjadi.

Bukti bahwa suatu aset keuangan mengalami penurunan nilai termasuk data yang dapat diobservasi sebagai berikut:

- · kesulitan keuangan signifikan;
- ada probabilitas bahwa peminjam akan bangkrut atau mengalami reorganisasi keuangan; atau
- suatu pelanggaran dari kontrak seperti gagal bayar, atau sudah menunggak lebih dari 90 hari.

#### (5) Offsetting financial instruments

Financial assets and liabilities are set-off and the net amount is presented in the statements of financial position when, and only when, the Group has the legal right to set off the amounts and intends either to settle on a net basis or realize the asset and settle the liabilities simultaneously.

The right of set-off must not be contingent on a future event and must be legally enforceable in all of the following circumstances:

- a. the normal course of business;
- b. the event of default; and
- the event of insolvency or bankruptcy of the Group and all of the counterparties.

#### (6) Impairment

The Group recognizes loss allowances for expected credit loss ("ECL") on financial assets measured at amortized cost. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls, i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost are impaired. A financial asset is impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is impaired includes the following observable data:

- significant financial difficulty;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- a breach of contract such as a default or being more than 90 days past due.

### b. Related party transactions

The Group applies PSAK 7, Related Party Disclosures. The PSAK requires the disclosures of related party relationships, transactions and outstanding balances, including commitments, in the consolidated financial statements.

### c. Cash and cash equivalents

Cash and cash equivalents are cash on hand, cash in banks, time deposits and short-term investments with a maturity period of three months or less at the time of placement and which are not used as collateral or are not restricted.

#### d. Treasury stock

Treasury stock is measured at consideration paid, including any significant directly attributable transaction costs (net of taxes), and is deducted from equity attributable to the owners of the Company.

## e. Transactions and balances in foreign currencies

Transactions in foreign currencies are translated to the respective functional currencies of the Group at the exchange rates prevailing at the time the transactions are made. At reporting date, monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency at the exchange rate at that date. The resulting gains or losses are credited or charged to the statement of profit or loss and other comprehensive income for the period.

For the purpose of consolidation, the statement of financial position of a subsidiary reporting in a currency other than the Rupiah is translated to Rupiah at the exchange rates prevailing at the reporting date. The income and expenses are translated to Rupiah at the average exchange rates prevailing during the year. The resulting exchange differences are recognized in other comprehensive income in the consolidated statement of profit or loss and other comprehensive income, and are accumulated in equity under the difference in translation of financial statements in foreign currency.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Ketika investasi atas entitas yang memiliki mata uang fungsional selain Rupiah dilepas, pengaruh signifikan atau pengendalian bersama hilang, jumlah akumulasi cadangan penjabaran terkait entitas tersebut direklasifikasi ke laba rugi sebagai bagian dari keuntungan atau kerugian pelepasan. Ketika Grup melepas sebagian kepemilikan atas entitas anak yang memiliki entitas semacam ini namun tetap mempertahankan pengendalian, proporsi akumulasi cadangan penjabaran terkait akan diatribusikan kembali ke kepentingan nonpengendali.

  - e. Transactions and balances in foreign currencies (continued)

Foreign currency differences arising on retranslation are generally recognized in profit or loss. However, foreign currency differences arising from the retranslation of available-for-sale equity investments are recognized in other comprehensive income, except on impairment in which case foreign currency differences that have been recognized in other comprehensive income are recognized to profit or loss.

When an investment in an entity with a functional currency other than Rupiah is disposed or significant influence or joint control is lost, the cumulative amount in the translation reserve related to that entity is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes such entity while retaining control, the relevant proportion of the cumulative amount of translation reserve is reattributed to non-controlling interests.

#### f. Income tax

The Group accounts for the current and future tax consequences of the future recovery (settlement) of the carrying amount of assets (liabilities) that are recognized in the consolidated statement of financial position, and transactions and other events of the current period that are recognized in the consolidated financial statements.

#### f. Paiak penghasilan (lanjutan)

Pajak kini adalah pajak terutang atau piutang pajak yang diharapkan atas laba kena pajak (rugi pajak) selama tahun berjalan, dengan menggunakan tarif pajak yang secara substantif berlaku pada tanggal pelaporan, dan termasuk penyesuaian atas provisi beban pajak tahun-tahun sebelumnya baik untuk direkonsiliasikan dengan pajak penghasilan yang dilaporkan pada pelaporan pajak tahunan, atau untuk memperhitungkan selisih yang timbul dari pemeriksaan pajak.

Grup menerapkan metode aset dan liabilitas dalam menghitung beban pajaknya. Dengan metode ini, aset dan liabilitas pajak tangguhan diakui pada setiap tanggal pelaporan sebesar perbedaan temporer aset dan liabilitas untuk tujuan pelaporan keuangan dan tujuan perpajakan. Metode ini juga mengharuskan pengakuan manfaat pajak di masa yang akan datang, seperti kompensasi rugi fiskal, jika besar kemungkinan manfaat pajak tersebut dapat direalisasi.

Pajak tangguhan diukur dengan menggunakan tarif pajak yang diharapkan untuk diterapkan atas perbedaan temporer pada saat pembalikan, berdasarkan peraturan yang berlaku atau secara substantif telah berlaku pada tanggal pelaporan.

Aset pajak tangguhan merupakan sisa saldo neto dari manfaat pajak tangguhan yang telah diperoleh dan dimanfaatkan sampai dengan tanggal pelaporan. Aset pajak tangguhan ditelaah pada setiap tanggal pelaporan dan dikurangi sepanjang manfaat pajaknya tidak dimungkinkan untuk direalisasikan; pengurangan tersebut dibalik ketika kemungkinan realisasinya melalui laba kena pajak di masa depan meningkat.

Aset pajak tangguhan yang belum diakui dinilai kembali pada setiap tanggal pelaporan dan diakui sepanjang kemungkinan besar laba kena pajak di masa depan akan tersedia untuk digunakan.

Aset dan liabilitas pajak tangguhan disajikan salinghapus di laporan posisi keuangan konsolidasian, kecuali aset dan liabilitas pajak tangguhan untuk entitas hukum yang berbeda, hal ini berlaku juga untuk penyajian aset dan liabilitas pajak kini.

# 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### f. Income tax (continued)

Current tax is the expected tax payable or refundable on taxable income or loss for the year, using tax rates substantively enacted as of the reporting date, and includes true-up adjustments made to the previous years' tax provisions either to reconcile them with the income tax reported in annual tax returns, or to account for differences arising from tax assessments.

The Group applies the asset and liability method in determining its income tax expense. Under this method, deferred tax assets and liabilities are recognized at each reporting date for temporary differences between the assets and liabilities for financial reporting purpose and for taxation purposes. This method also requires the recognition of future tax benefits, such as tax loss carryforwards, to the extent that realization of such benefits is probable.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary difference, when they reverse, based on the laws that have been enacted or substantially enacted at the reporting date.

Deferred tax assets represent the net remaining balance of deferred tax benefits that have been originated and utilized through the reporting date. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of their realization through future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are offset in the consolidated statement of financial position, except if these are for different legal entities, in the same manner the current tax assets and liabilities are presented.

## g. Laba per saham

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang dapat diatribusikan kepada pemilik Perusahaan dengan jumlah ratarata tertimbang saham beredar/ditempatkan selama tahun yang bersangkutan.

Laba per saham dilusian dihitung dengan membagi laba tahun berjalan yang dapat diatribusikan kepada pemilik Perusahaan dengan total rata-rata tertimbang saham beredar/ditempatkan setelah mempertimbangkan penyesuaian atas dampak konversi dari semua instrumen berpotensi saham biasa bersifat dilutif yang mungkin diterbitkan Perusahaan.

Jika jumlah saham biasa atau instrumen berpotensi saham biasa yang beredar meningkat sebagai akibat dari kapitalisasi, penerbitan saham bonus atau pemecahan saham atau menurun sebagai akibat dari penggabungan saham, maka perhitungan laba per saham dasar dan dilusian untuk seluruh periode yang disajikan disesuaikan secara retrospektif.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions, any additional taxes and penalties.

Final tax on certain transactions that is calculated based on the gross amount (i.e., amounts of cash received) is not considered as income tax.

## g. Earnings per share

Basic earnings per share are computed by dividing profit for the year attributable to the owners of the Company by the weighted average of total outstanding/issued shares during the year.

Diluted earnings per share are computed by dividing profit for the year attributable to owners of the Company to the weighted average of total outstanding/issued shares after considering adjustments for conversion of all dilutive potential ordinary shares that may be issued by the Company.

If the number of ordinary shares or potential ordinary shares outstanding increases as a result of capitalization, issuance of bonus shares or stock splits, or decreases as a result of a merger of shares, the calculation of basic or diluted earning per share for all periods is adjusted restrospectively.

#### h. Segment reporting

The Group identifies its operating segments on the basis of internal reports that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and assess its performance.

### i. Share based-payments

The Company provides share grants to the eligible employees through the Management Employee Share Grant Plan.

#### i. Pembayaran berbasis saham (lanjutan)

Nilai yang diakui sebagai beban disesuaikan untuk menggambarkan nilai penghargaan yang terkait dengan kondisi masa kerja yang diharapkan dapat terpenuhi, sehingga pada akhirnya nilai yang diakui sebagai beban didasarkan pada nilai penghargaan yang memenuhi kondisi jasa terkait pada saat tanggal *vesting*. Untuk kompensasi berbasis saham dengan kondisi kinerja pasar, nilai wajar saat tanggal pemberiannya diukur untuk merefleksikan kondisi tersebut dan tidak terdapat penyesuaian untuk perbedaan antara hasil yang diharapkan dan aktualnya.

Pada tanggal 31 Maret 2023 dan 31 Desember 2022, saldo akumulasi pembayaran berbasis saham Perusahaan masing-masing sebesar Rp34.590 dan Rp32.616.

# 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### i. Share based-payments (continued)

The amount recognized as an expense is adjusted to reflect the number of awards for which the related service conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that meet the related service conditions at the vesting date. For share-based compensation with market performance conditions, the respective grant-date fair value is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

As of 31 March 2023 and 31 December 2022, the outstanding balance of the accumulated share based payments amounted to Rp34,590 and Rp32,616, respectively.

Perhitungan nilai wajar diatas menggunakan beberapa metode pendekatan sebagai berikut:

# Pendekatan biaya

Perusahaan mengkaji bahwa investasi yang baru diperoleh dalam 12 bulan terakhir memiliki nilai perolehan yang mencerminkan nilai wajar. Selama tidak ada peristiwa setelah tanggal perolehan sampai dengan tanggal pelaporan yang mengindikasikan adanya perubahan nilai wajar yang signifikan, seperti kontraksi pasar akibat penggunaan teknologi yang usang atau inovasi-inovasi disruptif, nilai perolehan tersebut merupakan nilai tercatat yang mendekat nilai wajar pada tanggal pelaporan.

## Pendekatan nilai aset neto

Perusahaan menggunakan nilai tercatat aset neto pada perusahaan investasi dalam menentukan nilai investasi mereka. Pendekatan ini saat ini diterapkan di investasi yang mana *investee*-nya memiliki aset neto dengan nilai wajar level 1 yang signifikan.

### Pendekatan pasar dan pendekatan pendapatan

Manajemen menggunakan dua pendekatan yaitu pendekatan pendapatan (analisa arus kas terdiskonto (DCF)) dan pendekatan pasar (berdasarkan beberapa pasar dari perusahaan sejenis) untuk mengestimasi nilai wajar investasi tersebut. Pendekatan pasar digunakan untuk memeriksa kembali nilai estimasi berdasarkan analisa DCF.

The calculation of the fair value above uses several methods of approach as follows:

# Cost approach

The Company has assessed that recently acquired investment within the last 12 months has acquisition cost reflecting fair value. As long as there is no event after acquisition date to reporting date that indicates significant changes to its far value, such as market contraction due to the use of obsolete technology or disruptive innovations, its acquisition cost is the amount carried at approximately fair value at reporting date.

## Net asset value approach

The Company uses the carrying amounts of net assets of the investees in determining the value of their investments. The approach is currently applied to investments in which the investees have significant net assets measured at fair vaue level 1.

### Market approach and income approach

Management uses both income approach (the Discounted Cash Flow (DCF) analysis) and market approach (based on several markets of comparable companies) to estimate the fair value of the investments. The market approach is used to cross-check the value estimated based on the DCF analysis.

### 18. NILAI WAJAR INSTRUMEN KEUANGAN (lanjutan)

### Pendekatan pasar dan pendekatan pendapatan

Pendekatan ini diterapkan di investasi yang mana *investee*-nya merupakan perusahaan nonpublik dan memiliki aktivitas komersial yang menjanjikan.

Investee tersebut bergerak di bidang industri yang beragam dan memiliki peluang bisnis, paparan risiko, profil pasar dan lingkungan persaingan yang juga bervariasi. Estimasi nilai wajarnya disusun dengan mempertimbangkan banyak asumsi-asumsi yang unik dan relevan di industri investee terkait. Karenanya, pengungkapan analisa sensitivitas secara agregat atas input penting yang digunakan tidak praktis dan berarti.

### 18. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

### Market approach and income approach

These investees are engaged in various industries and have varying business opportunities, risk exposure, market profile and competitive environment as well. Their fair value estimations are prepared by considering many unique assumptions and relevant to their respective industries. Therefore, an aggregated disclosure of sensitivity analysis on the key inputs used would not be practiceable nor meaningful.

### Risiko nilai tukar mata uang asing

Risiko nilai tukar mata uang asing adalah risiko bahwa nilai wajar atau arus kas masa depan instrumen keuangan akan berfluktuasi karena perubahan dalam nilai tukar mata uang. Grup terekspos terhadap pergerakan nilai tukar mata uang asing terutama dari pinjaman bank dalam Dolar AS. Risiko ini, sampai pada batas tertentu, dimitigasi dengan investasi dan penghasilan dividen dalam Dolar AS.

Grup secara aktif menangani risiko mata uang asing yang tersisa melalui:

- Pembelian US Dolar dari pasar spot melalui bank;
  dan
- Mencari solusi alternatif lain dalam mengatasi risiko, yaitu melalui lindung nilai penuh atau sebagian.

Kegiatan ini diambil dalam menjamin kelangsungan hidup jangka panjang Grup dan meminimalisasi dampak yang buruk terhadap kinerja keuangan Grup.

### Foreign exchange risk

Foreign exchange rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group is exposed to foreign exchange rate risk mainly from the US Dollar denominated loans from banks. This risk is, to some extent, mitigated by certain investments and dividend income that are denominated in USD.

The Group is actively addressing the remaining foreign exchange risk through:

- 1. Buying USD in spot market through banks; and
- Seeking other alternative solutions in addressing the risk, i.e a full or partial hedging.

These activities are taken in order to safeguard the Group's long term continuity and to minimize potential adverse effects on the financial performance of the Group.

The following table presents the Group's financial position in USD:

Risiko suku bunga Grup timbul dari pinjaman bank dan fasilitas kredit yang diterbitkan dengan dasar suku bunga mengambang. Oleh karena itu, Grup memiliki eksposur atas fluktuasi arus kas yang diakibatkan oleh perubahan suku bunga yang sebagian dihapuskan oleh suku bunga mengambang dari kas dan setara kas, piutang non-usaha dan kas yang dibatasi penggunaannya. Grup mengelola penghasilan bunga melalui kombinasi antara suku bunga tetap dan mengambang untuk kas dan setara kas (termasuk deposito berjangka), piutang nonusaha, dan kas yang dibatasi penggunaannya dan membuat perbandingan tingkat suku bunga dengan yang ada di pasar keuangan. Grup telah mengkaji bahwa perubahan pada suku bunga di akhir periode pelaporan, dimana semua variabel lain tetap sama, tidak akan memiliki dampak signifikan terhadap ekuitas dan laba rugi.

## c. Risiko likuiditas

Risiko likuiditas merupakan risiko yang timbul dalam situasi dimana arus kas masuk Grup dari pendapatan jangka pendek tidak cukup untuk memenuhi arus kas keluar untuk pengeluaran jangka pendek.

Untuk mengelola risiko likuiditas, Grup menerapkan manajemen risiko sebagai berikut:

- memonitor dan menjaga kas dan setara kas di level yang diperkirakan cukup untuk mendanai kegiatan operasional Grup dan mengurangi pengaruh fluktuasi dalam arus kas;
- secara rutin memonitor perkiraan arus kas dan arus kas aktual;
- secara rutin memonitor profil jatuh tempo pinjaman dan melakukan penyesuaian seperlunya;
- secara terus-menerus menilai kondisi pasar keuangan untuk kesempatan memperoleh dana; dan
- sebagai tambahan, Grup memiliki fasilitas pinjaman stand-by yang dapat ditarik sesuai dengan permintaan untuk mendanai kegiatan operasi pada saat diperlukan.

### b. Market risk (continued)

### Foreign exchange risk (continued)

The strengthening/weakening of the Rupiah against the USD at 31 March 2023 and 31 December 2022 would have increased or decreased equity and profit or loss by the amounts shown below, assuming all other variables held constant.

## Interest rate risk

The Group's interest rate risk arises from bank loans and credit facilities issued at floating interest rates. Accordingly, the Group has an exposure to fluctuation in cash flows due to changes in interest rates, which is partially offset with floating interest rates from cash and cash equivalents, non-trade receivables and restricted cash. The Group manages interest income through a mix of fixed and floating interest rates of cash and cash equivalents (including time deposits), non-trade receivables, and restricted cash and makes comparison of such rates in the relevant financial markets. The Group has assessed that a change in interest rates at the end of the reporting period, with all other variables remain constant, would not have significant impact to equity and profit or loss.

## c. Liquidity risk

Liquidity risk is a risk that arises in situations where the Group's cash inflows from short-term revenue is not adequate to cover cash outflows for shortterm expenditure.

To manage its liquidity risk, the Group applies the following risk management:

- monitor and maintain its cash and cash equivalents at a level deemed adequate to finance the Group's operational activities and to mitigate the effect of fluctuations in cash flows;
- regularly monitor projected and actual cash flow;
- regularly monitor loan maturity profiles and make relevant adjustments;
- continuously assess the financial markets for opportunities to raise funds; and
- 5. in addition, the Group has a stand-by loan facility that can be drawn down upon request to fund its operations when needed.
